

LID features in the R/W (July 1, 2018):

Agency	Does the agency allow LID installations in the R/W	What is the O&M mechanism
City of Sacramento	Yes, but only if treating/mitigating runoff from existing or areas planned to be public roads and public R/W areas (post development), not private parcels	<p>**Setup CFD or other form of maintenance district for long term O&M funds</p> <p>**Execute maintenance agreements with HOAs</p> <p>**Local municipality has discretion to serve as backup for O&M, if funds are available and agency agrees</p> <p>**If no HOA and CFD funds available, please check with City as early as possible to see if City will agree to conduct the O&M (very limited circumstances)</p>
Sacramento County	No, but please note that County R/W is curb to curb	<p>**Setup CFD for long term O&M funds</p> <p>**Execute maintenance agreements with HOAs</p> <p>**Local municipality as backup for O&M, if funds are available and agency agrees</p>
City of Citrus Heights	Yes, but only if treating/mitigating "public water", i.e. runoff from existing or areas planned to be public roads and public R/W areas (post development), not private parcels. May also consider LID installations outside of the development for purposes of checking that LID installations within the development are effective.	<p>**Setup CFD or other form of maintenance district for long term O&M funds</p> <p>**Execute maintenance agreements with HOA or property owner</p> <p>**Local municipality has discretion to serve as backup for O&M, provided funds are available in the HOA or maintenance district</p> <p>**If no HOA or maintenance district funds are available, please check with City as early as possible to see if City will agree to conduct the O&M (very limited circumstances)</p>
City of Elk Grove	Yes, but only if treating/mitigating runoff from existing or areas planned to be public roads and public R/W areas (post development), not private parcels	<p>**Setup CFD for long term O&M funds</p> <p>**Execute maintenance agreements with HOAs</p> <p>**Local municipality as backup for O&M, if funds are available and agency agrees</p>
City of Galt	Consult with Agency for details.	<p>**Setup CFD for long term O&M funds</p> <p>**Execute maintenance agreements with HOAs</p> <p>**Local municipality as backup for O&M, if funds are available and agency agrees</p>
City of Folsom	Yes, but only if treating/mitigating runoff from existing or areas planned to be public roads and public R/W areas (post development), not private parcels	<p>**Setup CFD for long term O&M funds</p> <p>**Execute maintenance agreements with HOAs</p> <p>**Local municipality as backup for O&M, if funds are available and agency agrees</p> <p>**If no HOA and CFD funds available, please check with City as early as possible to see if City will agree to conduct the O&M (very limited circumstances)</p>
City of Rancho Cordova	Yes, but only if treating/mitigating runoff from existing or areas planned to be public roads and public R/W areas (post development), not private parcels. City is currently evaluating acceptable LIDs. For now, they will be approved on a case by case basis.	<p>**Setup CFD long term O&M funds for City to provide O&M.</p> <p>**Execute maintenance agreements with HOA or property owner for private roads.</p> <p>**If no HOA or maintenance district funds are available, please check with City as early as possible to see if City will agree to conduct the O&M</p>
