## **CI-3**

# Commercial / Industrial Annual Refresher Training for Regulatory Compliance Staff (FY 19/20)

## Video

Watch some or all. Keep in mind, every local and state entity will do things a little different to protect water quality. If you have questions about specific best management practices or specific violations, ask. To review examples of specific violations from previous trainings, review the PDF located at <W:\Data\STORMWATER\RegComp FY 19-20.pdf>

**What the Heck is Stormwater runoff?** (5:19) Video by California Water Board and featuring Dave Tamayo with County DWR.

<https://youtu.be/kyH02NjyfPA>

Key Points: (1) All stormwater is not treated before it enters our rivers and creeks. The exception to this within the County of Sacramento is the combined stormwater sewer system in downtown Sacramento ([100 plus years old](#)). (2) Stormwater picks up human deposited pollutants as it flows across impervious surfaces to one of the many storm drains within Sacramento County. (3) Stormwater regulations require local Govt. to restore the natural watershed filtration capacity that existed before urban development by requiring Low Impact Development.

### Why an MS4 Permit?

<https://youtu.be/wbmpZbBOr3U?t=197> (3:14) Video on the basics of an MS4 permit.

### Stormwater Strategies: Housekeeping.

<https://youtu.be/UxOam2GEVgQ> (14:01) Video by City of San Diego describing stormwater best management practices and general housekeeping requirements.

Key Points: (1) Businesses must implement “Best Management Practices” (BMP) to prevent pollution from entering or potentially entering the County/City maintained storm drain system. Several effective BMPs are discussed.

### How to Spot and Report Stormwater Pollution.

<https://youtu.be/hnXMalmckKo> (7:05) Video by State of Texas on how to spot stormwater pollution.

Key Points: (1) What to look for to identify stormwater pollution. (2) Common pollution sources.

### **LA Waterkeeper- 20 Years of Protecting Los Angeles Waterways.**

<https://youtu.be/2DFiAHTZi44> (8:17) Video by Los Angeles Water Keeper describing how third party lawsuits help to keep polluters, including Govt., from polluting Waters of the U.S.

Key Points: (1) LA Waterkeeper is a Non-Government Legal Organization that uses provisions granted by the Federal Clean Water Act to sue entities (businesses, Govt.) for violating the Fed Clean Water Act—including MS4 permit violators. (2) Third party lawsuits appear to be the driving force to get individuals to comply with Clean Water Act requirements. (2) The Sacramento area has the California Sportfishing Association, Heal the Bay, and San Francisco Baykeeper that drive a lot of the Central Valley law suits.

## **Bonus Video**

### **Stormwater Best Management Practices Training for Industrial and Commercial Facilities.**

<https://youtu.be/Xytid-LlxMk> (14:46) Video by Port of San Diego describing their MS4 permit.

Key Points: (1) The Port of San Diego MS4 permit is similar to Sacramento County's MS4 Permit. (2) Common waste streams. (3) Concept of urban runoff. (4) What are BMPs. (5) Examples of good BMPs

### **City of L.A. Stormwater; Employee Training.**

<https://youtu.be/qQb3Hehipro> (20:22, 12 min if you skip quiz at end) Video by City of Los Angeles on stormwater pollution and best management practices.

Key Points: (1) NPDES Permit. (2) Los Angeles's history with their MS4 permit. (3) The hierarchy for the enforcement of the Federal Clean Water Act (most states have been granted authority from Fed EPA to enforce the Federal Clean Water Act). (4) Trash Amendment (5) BMPs

### **Basics of the Clean Water Act – Better at 40**

<https://youtu.be/ZEQcUngxbLI> (5:19) A Video by Minnesota Pollution Control Agency on the History of the Fed Clean Water Act and the politics behind it.

Key Points: (1) The beginning of the Environmental Movement. (2) Conditions before the Fed Clean Water Act. (3) Cracking down on wastewater treatment plant discharges. (4) Impact on Corporate America (3M).

### **Low Impact Development (LID) Stormwater**

<https://youtu.be/AiaVLWgQee0> (6:25) A video on Low Impact Development principals designed to recharge aquifers and keep stormwater pollutants out of rivers, creeks, and oceans.

Key Points: (1) All MS4s have to implement LID concepts into new land development projects. (2) Bio retention ponds, bio swales, pervious pavers, etc. (3) Look for LID features around Sacramento County (CSUS <https://youtu.be/tXV5SV7gWQE>, Highway 50 / Watt Avenue off ramp, etc.

---

## **Sacramento Regulated Facilities**

The 9 different business types EMD's Commercial / Industrial Stormwater Program regulates. Each business type has a specific definition and has been codified in Sac County Code (ex. Auto Dealer must have at least 5,000 sqft of outdoor display area)

[6.99.045 Auto Body Shops.](#)

[6.99.050 Auto Dealers.](#)

[6.99.055 Auto Repair Shops.](#)

[6.99.070 Equipment Rentals.](#)

[6.99.075 General Permit Industry.](#)

[6.99.090 Kennels.](#)

[6.99.095 Nurseries.](#)

[6.99.100 Retail Gasoline Outlet.](#)

[6.99.265 Food Facility Fee.](#)

---

## **Local Regulations**

These 4 regulations are what support the violations we write. Each city within Sacramento County has their own ordinance with their own version of the provisions. When inspecting within a city, EMD has been given authority to enforce the City's ordinance via a MOU between EMD and the specific city.

[15.12.200 Prohibited Non-Stormwater Discharge.](#)

Except as provided in Section [15.12.210](#), it shall be unlawful for any person to make or cause to be made any Non-stormwater discharge into the County storm drain system or directly to natural surface waters. (SCC 1280 § 2, 2004)

### 15.12.230 Prohibited Stormwater Discharges.

It shall be unlawful for any person to discharge, or cause to be discharged, any stormwater or material to the County storm drain system which results in, or contributes to a violation of a receiving water limitation or a violation of the Municipal Stormwater Permit. (SCC 1280 § 2, 2004)

### 15.12.240 Prohibited Conditions.

a. In the interest of preventing prohibited discharges from occurring, it shall be unlawful for any person to maintain, or cause to be maintained, any of the following conditions:

1. Unmitigated stormwater pollution source;
2. Threatened prohibited non-stormwater discharge;
3. Prohibited non-stormwater discharge Installation; or
4. Illicit connection.

### 15.12.300 General Requirements for Best Management Practices.

Any person engaged in activities which may result in pollutants entering the stormwater conveyance system shall, to the maximum extent practicable, undertake BMPs to reduce the risk of Non-stormwater discharge and/or pollutant discharge. (SCC 1280 § 2, 2004)

---

## **Exempt Areas**

Facilities outside of the Urban Service Area

Facilities within the City of Sacramento's Combined Stormwater Sewer System

Areas that have their own MS4 Permit (Cal Expo, CSUS, Folsom Prison, Rancho Murieta, Cosumnes Parks and Rec, Elk Grove Unified School District)

---

## **Allowable Non-Stormwater Discharges**

These discharges are conditionally allowed by local regulations:

### 15.12.210 Exceptions To Non-Stormwater Discharge Prohibition.

The following discharges to the County storm drain system are exempt from the otherwise applicable discharge prohibition set forth in Section 15.12.200:

a. Any discharge regulated under a NPDES Permit issued to the discharger, and administered by the State pursuant to Chapter 5.5 of Division 7 of the Water Code, provided that any such discharge is in compliance with all requirements of the NPDES Permit and all other applicable laws and regulations.

b. Any discharge from any of the following activities provided that any such discharge does not cause or contribute to the violation of any receiving water limitation as determined by the Administrator:

1. Water line flushing;
2. Landscape irrigation;
3. Diverted stream flows;
4. Rising ground waters;
5. Uncontaminated ground water infiltration [as defined in 40 CFR 35.2005(20)] to separate storm sewers;
6. Uncontaminated pumped ground water;
7. discharges from potable water sources;
8. Foundation drains;
9. Air conditioning condensate;
10. Uncontaminated irrigation water;
11. Springs;
12. Water from crawl space pumps;
13. Footing drains;
14. Lawn watering;
15. Individual residential car washing;
16. Flows from riparian habitats and wetlands;
17. Dechlorinated swimming pool discharges; or
18. discharges or flows from emergency fire fighting activities.

---

## **Stormwater violations to refer to Stormwater Specialist for follow up**

- Illicit connections or potential illicit connections
- Egregious conditions
- Anything you do not have time to follow up on
- Anything you want assistance with

---

## **EMD requirements under the County MS4 Permit**

- Perform inspections of commercial/industrial businesses once every three years
- Refer significant violators to the Regional Board
- Progressive enforcement
- Complaint response

- Annual training and assessment of inspection staff
- Annual and monthly reporting requirements

---

**Quiz** (Highlight the correct answer. Email has to be in “reply back” mode before Outlook will let you highlight. An alternative would be to copy and paste the quiz into another email and send back to me)

1) With the exception of the City of Sacramento’s Combined Stormwater Sewer system, all stormwater that enters a storm drain system is treated before it discharges to a river or creek

True      False

2) A vehicular fluid spill in an uncovered area with absorbent placed on it and left there for multiple days is considered compliant.

True      False

3) A pollutant must enter a storm drain in order for there to be a stormwater violation.

True      False

4) The preferred method of cleanup for a gasoline or oil spill is to pressure wash the affected surface and allow the wash water to enter the storm drain.

True      False

5) Pressure washing a fuel pad at night to the gutter is permissible as long as “it’s just plain water.”

True      False

6) Disposing of mop water from the inside of a shop or windshield squeegee wash water to the ground is an acceptable disposal method.

True      False

7) Soaps/detergents may be discharged to the storm drain system when they are labeled as “non-toxic” or “biodegradable”.

True      False

8) Plumbing an air compressor condensate valve to a storm drain inlet is an illicit connection.

True      False

9) The MS4 Permit for the County of Sacramento and Incorporated Cities requires inspections of commercial and industrial facilities to be conducted at least every three years?

True      False

10) Inspectors are responsible for closing out stormwater violations they issue once they receive return to compliance from the operator?

True      False

11) Stormwater Best Management Practices/Housekeeping must be implemented by all business in EMD's stormwater compliance program but only to the extent the BMP(s) is needed to address a specific potential discharge. So if a facility chooses to sweep a certain area to prevent litter and trash from migrating into a storm drain, as long as the sweeping is effective, the facility does not have to install storm drain inserts?

True      False

12) It is a good idea to look a storm drains located around a facility to identify potential illicit discharges into that drain?

True      False

13) When floor drains or channel drains are located inside a shop area, it is good practice to question an operator on where the drain leads (i.e. sewer or stormdrain)?

True      False

14) Because it is not raining or a rain event is not expected, a potential stormwater pollutant source is allowed to remain outside a facility?

True      False

**FY 19/20**  
**Training List**

# STORMWATER INSPECTOR TRAINING SURVEY

County of Sacramento Environmental Management Department

Annual Stormwater Inspection Training Refresher for Health Inspectors FY 19/20

Inspector Name: EUGENE ABELARDO Date: 6/23/2020

- 1) Stormwater inspections are to be completed once annually at restaurants.  
 True  False
- 2) In order for there to be a stormwater violation, the pollutant has to enter a storm drain.  
 True  False
- 3) A violation should be referred to a stormwater specialist when a significant amount of cooking grease is noted on the ground and/or impact to the storm drain is likely.  
 True  False
- 4) Wastewater from outdoor surface cleaning (e.g., pressure washing) is permitted to enter the storm drain system.  
 True  False
- 5) When a stormwater violation is noted during an EH only inspection, a stormwater inspection must be conducted by the EH Specialist.  
 True  False
- 6) Soaps/detergents may be discharged to the storm drain system when they are labeled as "non-toxic" or "biodegradable".  
 True  False
- 7) Illicit Connections and Interceptor/Sewage Overflows should always be referred to a Stormwater Specialist.  
 True  False
- 8) Outdoor mop sinks are always plumbed to the sanitary sewer system.  
 True  False
- 9) One reason dumpster lids must remain shut is because rain water that gets in will liquefy contents and leak out.  
 True  False

# **Appendix**

## **CI-4**

**Environmental Management Department**

Marie Woodin, Director

**Divisions**

Environmental Compliance  
Environmental Health

**County of Sacramento**

June 08, 2021

Brett Stevens  
Regional Water Quality Control Board  
Central Valley Region  
11020 Sun Center Drive #200  
Rancho Cordova, CA 95670-6114

**SUBJECT: STORMWATER VIOLATION REPORT FOR  
VIOLATIONS ISSUED BY COUNTY OF SACRAMENTO  
ENVIRONMENTAL MANAGEMENT DEPARTMENT**

Dear Brett Stevens,

Attached is a report of all stormwater violations issued in the last 30 days to businesses in the regulated areas of Sacramento County by the County of Sacramento Environmental Management Department (EMD), for the Commercial/Industrial Stormwater Compliance Program, as implemented on behalf of the MS4 permittees. EMD will be providing these reports to you on a monthly basis.

Please feel free to contact Ajay Sharma at (916) 698-2057 if you have any questions or need further file information.

Sincerely,

A handwritten signature in black ink, appearing to read "R. Villareal".

Rolando Villareal  
Acting Chief, Environmental Health Division  
Environmental Management Department

## **CI-3**

# Commercial / Industrial Annual Refresher Training for Regulatory Compliance Staff (FY 19/20)

## Video

Watch some or all. Keep in mind, every local and state entity will do things a little different to protect water quality. If you have questions about specific best management practices or specific violations, ask. To review examples of specific violations from previous trainings, review the PDF located at <W:\Data\STORMWATER\RegComp FY 19-20.pdf>

**What the Heck is Stormwater runoff?** (5:19) Video by California Water Board and featuring Dave Tamayo with County DWR.

<https://youtu.be/kyH02NjyfPA>

Key Points: (1) All stormwater is not treated before it enters our rivers and creeks. The exception to this within the County of Sacramento is the combined stormwater sewer system in downtown Sacramento ([100 plus years old](#)). (2) Stormwater picks up human deposited pollutants as it flows across impervious surfaces to one of the many storm drains within Sacramento County. (3) Stormwater regulations require local Govt. to restore the natural watershed filtration capacity that existed before urban development by requiring Low Impact Development.

### Why an MS4 Permit?

<https://youtu.be/wbmpZbBOr3U?t=197> (3:14) Video on the basics of an MS4 permit.

### Stormwater Strategies: Housekeeping.

<https://youtu.be/UxOam2GEVgQ> (14:01) Video by City of San Diego describing stormwater best management practices and general housekeeping requirements.

Key Points: (1) Businesses must implement “Best Management Practices” (BMP) to prevent pollution from entering or potentially entering the County/City maintained storm drain system. Several effective BMPs are discussed.

### How to Spot and Report Stormwater Pollution.

<https://youtu.be/hnXMalmckKo> (7:05) Video by State of Texas on how to spot stormwater pollution.

Key Points: (1) What to look for to identify stormwater pollution. (2) Common pollution sources.

### **LA Waterkeeper- 20 Years of Protecting Los Angeles Waterways.**

<https://youtu.be/2DFiAHTZi44> (8:17) Video by Los Angeles Water Keeper describing how third party lawsuits help to keep polluters, including Govt., from polluting Waters of the U.S.

Key Points: (1) LA Waterkeeper is a Non-Government Legal Organization that uses provisions granted by the Federal Clean Water Act to sue entities (businesses, Govt.) for violating the Fed Clean Water Act—including MS4 permit violators. (2) Third party lawsuits appear to be the driving force to get individuals to comply with Clean Water Act requirements. (2) The Sacramento area has the California Sportfishing Association, Heal the Bay, and San Francisco Baykeeper that drive a lot of the Central Valley law suits.

## **Bonus Video**

### **Stormwater Best Management Practices Training for Industrial and Commercial Facilities.**

<https://youtu.be/Xytid-LlxMk> (14:46) Video by Port of San Diego describing their MS4 permit.

Key Points: (1) The Port of San Diego MS4 permit is similar to Sacramento County's MS4 Permit. (2) Common waste streams. (3) Concept of urban runoff. (4) What are BMPs. (5) Examples of good BMPs

### **City of L.A. Stormwater; Employee Training.**

<https://youtu.be/qQb3Hehipro> (20:22, 12 min if you skip quiz at end) Video by City of Los Angeles on stormwater pollution and best management practices.

Key Points: (1) NPDES Permit. (2) Los Angeles's history with their MS4 permit. (3) The hierarchy for the enforcement of the Federal Clean Water Act (most states have been granted authority from Fed EPA to enforce the Federal Clean Water Act). (4) Trash Amendment (5) BMPs

### **Basics of the Clean Water Act – Better at 40**

<https://youtu.be/ZEQcUngxbLI> (5:19) A Video by Minnesota Pollution Control Agency on the History of the Fed Clean Water Act and the politics behind it.

Key Points: (1) The beginning of the Environmental Movement. (2) Conditions before the Fed Clean Water Act. (3) Cracking down on wastewater treatment plant discharges. (4) Impact on Corporate America (3M).

### Low Impact Development (LID) Stormwater

<https://youtu.be/AiaVLWgQee0> (6:25) A video on Low Impact Development principals designed to recharge aquifers and keep stormwater pollutants out of rivers, creeks, and oceans.

Key Points: (1) All MS4s have to implement LID concepts into new land development projects. (2) Bio retention ponds, bio swales, pervious pavers, etc. (3) Look for LID features around Sacramento County (CSUS <https://youtu.be/tXV5SV7gWQE>, Highway 50 / Watt Avenue off ramp, etc.

---

## Sacramento Regulated Facilities

The 9 different business types EMD's Commercial / Industrial Stormwater Program regulates. Each business type has a specific definition and has been codified in Sac County Code (ex. Auto Dealer must have at least 5,000 sqft of outdoor display area)

[6.99.045 Auto Body Shops.](#)

[6.99.050 Auto Dealers.](#)

[6.99.055 Auto Repair Shops.](#)

[6.99.070 Equipment Rentals.](#)

[6.99.075 General Permit Industry.](#)

[6.99.090 Kennels.](#)

[6.99.095 Nurseries.](#)

[6.99.100 Retail Gasoline Outlet.](#)

[6.99.265 Food Facility Fee.](#)

---

## Local Regulations

These 4 regulations are what support the violations we write. Each city within Sacramento County has their own ordinance with their own version of the provisions. When inspecting within a city, EMD has been given authority to enforce the City's ordinance via a MOU between EMD and the specific city.

[15.12.200 Prohibited Non-Stormwater Discharge.](#)

Except as provided in Section [15.12.210](#), it shall be unlawful for any person to make or cause to be made any Non-stormwater discharge into the County storm drain system or directly to natural surface waters. (SCC 1280 § 2, 2004)

### 15.12.230 Prohibited Stormwater Discharges.

It shall be unlawful for any person to discharge, or cause to be discharged, any stormwater or material to the County storm drain system which results in, or contributes to a violation of a receiving water limitation or a violation of the Municipal Stormwater Permit. (SCC 1280 § 2, 2004)

### 15.12.240 Prohibited Conditions.

a. In the interest of preventing prohibited discharges from occurring, it shall be unlawful for any person to maintain, or cause to be maintained, any of the following conditions:

1. Unmitigated stormwater pollution source;
2. Threatened prohibited non-stormwater discharge;
3. Prohibited non-stormwater discharge Installation; or
4. Illicit connection.

### 15.12.300 General Requirements for Best Management Practices.

Any person engaged in activities which may result in pollutants entering the stormwater conveyance system shall, to the maximum extent practicable, undertake BMPs to reduce the risk of Non-stormwater discharge and/or pollutant discharge. (SCC 1280 § 2, 2004)

---

## **Exempt Areas**

Facilities outside of the Urban Service Area

Facilities within the City of Sacramento's Combined Stormwater Sewer System

Areas that have their own MS4 Permit (Cal Expo, CSUS, Folsom Prison, Rancho Murieta, Cosumnes Parks and Rec, Elk Grove Unified School District)

---

## **Allowable Non-Stormwater Discharges**

These discharges are conditionally allowed by local regulations:

### 15.12.210 Exceptions To Non-Stormwater Discharge Prohibition.

The following discharges to the County storm drain system are exempt from the otherwise applicable discharge prohibition set forth in Section 15.12.200:

a. Any discharge regulated under a NPDES Permit issued to the discharger, and administered by the State pursuant to Chapter 5.5 of Division 7 of the Water Code, provided that any such discharge is in compliance with all requirements of the NPDES Permit and all other applicable laws and regulations.

b. Any discharge from any of the following activities provided that any such discharge does not cause or contribute to the violation of any receiving water limitation as determined by the Administrator:

1. Water line flushing;
2. Landscape irrigation;
3. Diverted stream flows;
4. Rising ground waters;
5. Uncontaminated ground water infiltration [as defined in 40 CFR 35.2005(20)] to separate storm sewers;
6. Uncontaminated pumped ground water;
7. discharges from potable water sources;
8. Foundation drains;
9. Air conditioning condensate;
10. Uncontaminated irrigation water;
11. Springs;
12. Water from crawl space pumps;
13. Footing drains;
14. Lawn watering;
15. Individual residential car washing;
16. Flows from riparian habitats and wetlands;
17. Dechlorinated swimming pool discharges; or
18. discharges or flows from emergency fire fighting activities.

---

## **Stormwater violations to refer to Stormwater Specialist for follow up**

- Illicit connections or potential illicit connections
- Egregious conditions
- Anything you do not have time to follow up on
- Anything you want assistance with

---

## **EMD requirements under the County MS4 Permit**

- Perform inspections of commercial/industrial businesses once every three years
- Refer significant violators to the Regional Board
- Progressive enforcement
- Complaint response

- Annual training and assessment of inspection staff
- Annual and monthly reporting requirements

---

**Quiz** (Highlight the correct answer. Email has to be in “reply back” mode before Outlook will let you highlight. An alternative would be to copy and paste the quiz into another email and send back to me)

1) With the exception of the City of Sacramento’s Combined Stormwater Sewer system, all stormwater that enters a storm drain system is treated before it discharges to a river or creek

True      False

2) A vehicular fluid spill in an uncovered area with absorbent placed on it and left there for multiple days is considered compliant.

True      False

3) A pollutant must enter a storm drain in order for there to be a stormwater violation.

True      False

4) The preferred method of cleanup for a gasoline or oil spill is to pressure wash the affected surface and allow the wash water to enter the storm drain.

True      False

5) Pressure washing a fuel pad at night to the gutter is permissible as long as “it’s just plain water.”

True      False

6) Disposing of mop water from the inside of a shop or windshield squeegee wash water to the ground is an acceptable disposal method.

True      False

7) Soaps/detergents may be discharged to the storm drain system when they are labeled as “non-toxic” or “biodegradable”.

True      False

8) Plumbing an air compressor condensate valve to a storm drain inlet is an illicit connection.

True      False

9) The MS4 Permit for the County of Sacramento and Incorporated Cities requires inspections of commercial and industrial facilities to be conducted at least every three years?

True      False

10) Inspectors are responsible for closing out stormwater violations they issue once they receive return to compliance from the operator?

True      False

11) Stormwater Best Management Practices/Housekeeping must be implemented by all business in EMD's stormwater compliance program but only to the extent the BMP(s) is needed to address a specific potential discharge. So if a facility chooses to sweep a certain area to prevent litter and trash from migrating into a storm drain, as long as the sweeping is effective, the facility does not have to install storm drain inserts?

True      False

12) It is a good idea to look a storm drains located around a facility to identify potential illicit discharges into that drain?

True      False

13) When floor drains or channel drains are located inside a shop area, it is good practice to question an operator on where the drain leads (i.e. sewer or stormdrain)?

True      False

14) Because it is not raining or a rain event is not expected, a potential stormwater pollutant source is allowed to remain outside a facility?

True      False

**FY 19/20  
Training List**

# STORMWATER INSPECTOR TRAINING SURVEY

County of Sacramento Environmental Management Department

Annual Stormwater Inspection Training Refresher for Health Inspectors FY 19/20

Inspector Name: EUGENE ABELARDO Date: 6/23/2020

- 1) Stormwater inspections are to be completed once annually at restaurants.  
 True  False
- 2) In order for there to be a stormwater violation, the pollutant has to enter a storm drain.  
 True  False
- 3) A violation should be referred to a stormwater specialist when a significant amount of cooking grease is noted on the ground and/or impact to the storm drain is likely.  
 True  False
- 4) Wastewater from outdoor surface cleaning (e.g., pressure washing) is permitted to enter the storm drain system.  
 True  False
- 5) When a stormwater violation is noted during an EH only inspection, a stormwater inspection must be conducted by the EH Specialist.  
 True  False
- 6) Soaps/detergents may be discharged to the storm drain system when they are labeled as "non-toxic" or "biodegradable".  
 True  False
- 7) Illicit Connections and Interceptor/Sewage Overflows should always be referred to a Stormwater Specialist.  
 True  False
- 8) Outdoor mop sinks are always plumbed to the sanitary sewer system.  
 True  False
- 9) One reason dumpster lids must remain shut is because rain water that gets in will liquefy contents and leak out.  
 True  False

**STORMWATER INSPECTOR TRAINING SURVEY**  
County of Sacramento Environmental Management Department

Annual Stormwater Inspection Training Refresher for Health Inspectors FY 19/20

Inspector Name: Monica Boatright Date: 06/17/2020

- 1) Stormwater inspections are to be completed once annually at restaurants.  
 True  False
- 2) In order for there to be a stormwater violation, the pollutant has to enter a storm drain.  
 True  False
- 3) A violation should be referred to a stormwater specialist when a significant amount of cooking grease is noted on the ground and/or impact to the storm drain is likely.  
 True  False
- 4) Wastewater from outdoor surface cleaning (e.g., pressure washing) is permitted to enter the storm drain system.  
 True  False
- 5) When a stormwater violation is noted during an EH only inspection, a stormwater inspection must be conducted by the EH Specialist.  
 True  False
- 6) Soaps/detergents may be discharged to the storm drain system when they are labeled as “non-toxic” or “biodegradable”.  
 True  False
- 7) Illicit Connections and Interceptor/Sewage Overflows should always be referred to a Stormwater Specialist.  
 True  False
- 8) Outdoor mop sinks are always plumbed to the sanitary sewer system.  
 True  False
- 9) One reason dumpster lids must remain shut is because rain water that gets in will liquefy contents and leak out.  
 True  False

Environmental Compliance  
Environmental Health

**County of Sacramento**

June 08, 2021

Brett Stevens  
Regional Water Quality Control Board  
Central Valley Region  
11020 Sun Center Drive #200  
Rancho Cordova, CA 95670-6114

**SUBJECT: STORMWATER VIOLATION REPORT FOR  
VIOLATIONS ISSUED BY COUNTY OF SACRAMENTO  
ENVIRONMENTAL MANAGEMENT DEPARTMENT**

Dear Brett Stevens,

Attached is a report of all stormwater violations issued in the last 30 days to businesses in the regulated areas of Sacramento County by the County of Sacramento Environmental Management Department (EMD), for the Commercial/Industrial Stormwater Compliance Program, as implemented on behalf of the MS4 permittees. EMD will be providing these reports to you on a monthly basis.

Please feel free to contact Ajay Sharma at (916) 698-2057 if you have any questions or need further file information.

Sincerely,

A handwritten signature in black ink, appearing to read "R. Villareal".

Rolando Villareal  
Acting Chief, Environmental Health Division  
Environmental Management Department
